Full Stack Developer

Experienced Full Stack Developer with solid expertise in web development and a keen focus on quality and precision. Proficient in frontend technologies with extensive experience in React, Next.js, and Angular to build efficient and scalable applications. Known for creative problem-solving and delivering innovative solutions. Skilled in collaborating with teams and staying current with the latest technological advancements to continuously optimize development processes and enhance project efficiency.

SKILLS

Frontend : JavaScript, TypeScript, HTML, CSS, React, React Native, Next.js, Angular, Redux, Jest, Tailwind
Backend : Node.js, Python, Express, JWT, Django, MongoDB, MySQL, PostgreSQL
Cloud Services - AWS S3

MY PORTFOLIO

[Website]
Highlighted various projects with a strong focus on Next.js, Tailwind CSS, and unique design details. Utilized React i18next for multilingual support and integrated features like weather and Spotify. This portfolio reflects my commitment to detail and provides valuable insight into my ability to create dynamic and user-friendly web applications.

WORK EXPERIENCE

Anmedic- *FrontEnd Developer /* (November 2023 - June 2024)
- Implemented and maintained key system functionalities, such as user authentication and session management, using Next.js, JavaScript, Typescript and Jest, which optimized the login process.
- Designed and utilized scalable software architectures, improving application performance and reducing load times by 20%.
- Resolved technical issues and debugged errors, resulting in a reduction in reported bugs and improved application stability.
- Contributed to technical documentation, which streamlined the onboarding process for new developers by 40%.
